

## The Academy of Dance Tap Class Curriculum

---

### **Introduction to all tap levels syllabus:**

The skills and steps listed for each level are intended to be mastered before students are ready to move on; they are not meant to be the only steps a teacher will be working on in class throughout the year. Each level builds off the previous levels. Steps listed are not intended to be extensive/exclusive, but more as a guide to what level of difficulty and vocabulary each level will be working on. ***Levels will be reassessed at the end of each school year, though dancers should expect to spend multiple years in each level.***
